PLAN YOUR HEALTHY
BALANCED WORKOUT

 Check it off so it's easy to plan your week!

GROUP EXERCISE CLASS DESCRIPTIONS

DEFINE YOURSELF

STRENGTH

A.O.A CHAIR FITNESS: Burn calories and tone muscle while seated in a chair. Gentle and effective for beginners and older adults.

A.O.A TRAINING: A lower intensity program recommended for seniors. Participants will increase cardiovascular fitness, muscle strength and increase flexibility.

ARMS & ABS: Dare to go bare and show off your sculpted upper body. This express class tones everything from your waist up.

BARRE-LATES: Take the elements of barre and infuse them with pilates for a unique mind/body experience.

BARRE SCULPT: Combines elements of Ballet, Pilates, and Yoga. Engage your core muscles as you work through a challenging series of barre and body strength moves.

LOWER BOTTOM BLAST: It's bottoms up in this express class for everything south of your waistline.

PILATES: A mind-body program that tones and strengthens muscles, reduces stress, and creates a streamlined body shape. Improve core postural muscle strength, stability, and flexibility through graceful movements.

TOTALLY TONED: Define, firm, and condition all major muscle groups. This non-impact workout uses weights, resistance bands, body bars, and benches. **TOTALLY TONED EXPRESS:** 30min. session.

MIX IT UP

CARDIO/STRENGTH

CARDIO SCULPT: A mixture of strength and cardio intervals for a total cross training effect.

MORNING BURN: A cardio and conditioning workout like no other to get the day started! Using free-weights, resistance bands, and just your own body weight, this class will tone, burn & define your body. Burn calories, sculpt muscles, and "burn" your body into great shape.

R.I.P.P.E.D.®: Resistance, Intervals, Power, Plyometrics, Endurance, Diet. This 50 min. workout combines an easy, yet effective cardiovascular routine interlaced with weights and resistance, a combination that keeps your body moving.

SPEEDBALL®: A cardiovascular and muscular endurance class using a 2lb. medicine ball as an athletic training tool. This functional training class will increase agility, speed, core strength, and stability while improving mobility and flexibility.

TABATA TRAINING: Fire up your metabolism and kiss calories goodbye in this unique style of High Intensity Interval Training (HIIT) that is easy to adapt to all levels. What's Tabata? 20 seconds of intense exercise and 10 seconds of rest. Perform 8 rounds for a total of 4 min.

WALK & TONE: Get off the treadmill and walk to a beat. Features low-impact walking moves that can be modified to a fast walk or jog for more intensity. Class is the equivalent of a three mile walk. May include light weights.

ZUMBA® TONE: Combines targeted body sculpting exercises and high-energy cardio work with Zumba moves to create a calorie-torching strength-training workout.

GET YOUR SWEAT ON

CARDIO

CARDIO KICK & JAB: A cardiovascular workout incorporating boxing and kickboxing moves. A great total body workout.

CARDIO EXPRESS: 30 minutes of cardio step, circuit, tabata or kick boxing. Instructor's choice.

ZUMBA® GOLD: Zumba for the Active Older Adults, beginner participant and other special populations who may need modifications for success. Created to emphasize the basics, this explosive program is so easy to follow that students at any age can do it.

ZUMBA®: High energy Latin and hip hop moves and rhythms with motivating music that is fun and easy too. The routines feature aerobic/fitness interval training with a combination of fast and slow rhythms that tone and sculpt the body. Zumba is a "feel-happy" workout that is great for both the body and the mind.

JUST BREATHE

YOGA

PLEASE BRING YOUR OWN MAT TO CLASS.

GENTLE YOGA: As the body ages, muscles and joints begin to tighten which causes discomfort and anxiety about one's physical well-being. Learn deep breathing and relaxation techniques that will help you remain healthy and active. Class will be performed standing as well as on the mat.

HATHA YOGA: Experience greater flexibility, strength, and increase your range of motion, balance, and reduce stress.

POWER YOGA: A traditional Hatha yoga practice that generates heat through a vigorous flowing series of yoga postures coordinated with enhanced breathing to develop strength and flexibility. An athletic class for mixed levels.

RESTORATIVE YOGA: Employs the use of props (pillows, blankets, blocks, etc) to support the body so that you can hold the poses longer, allowing the body to release through passive stretching.

SUNRISE YOGA: Wake up the right way with this early morning yoga class. Each posture and sequence is designed to ensure the body is prepared for the daily activities. Appropriate for beginners through skilled practitioners.

TAI CHI: The ancient art of Tai Chi may be an ideal form of exercise for people to relieve stress. You will feel relaxed after practicing the slow stretching, breathing, and gentle movements of Tai Chi.
